MDB
## READ ONLY MEMORY MODULES for use with LSI*-11/2 and 11/23 Computers

MRV-000 for 2704, 2708 and 3624

MRV-001 for 1702

MRV-002 for 5623, 5624

MRV-003 for 3625

MLSI-MRV Read Only Memory Modules

- Accommodates commercially available 2704, 2708 or 1702 ULTRA VIOLET erasable PROMs
- Accommodates commercially available 5623, 5624, 3624 or 3625 fusible link PROMs or equivalent ROMs
- Switch selectable memory area allocation

ELECTRICAL REQUIREMENTS:
- +5V at 0.4A for −000 through −003; −12V at 70mA per set of ROMs for −000 and −001
PHYSICAL:
- Dual module, mounts in one-half quad slot

TWX: 910-593-1339

*TM Digital Equipment Corp.

MRV-004 for 2716 and 2758

MRV-005 for 2716 and 2732

MLSI-MRV-004 PROM Programmer Module

- Accommodates commercially available 2716 and 2758 UV erasable PROMs
- **On-Board Programmer,** switch selectable
- Switch selectable memory area allocation

ELECTRICAL REQUIREMENTS:
- +5V at 0.5A and +12V at 0.02A

PHYSICAL:
- Dual module, mounts in one-half quad slot

MLSI-MRV-005 PROM/RAM Module

- Accommodates commercially available 2716 and 2732 UV erasable PROMs
- Accommodates commercially available 4016 RAMs (PROM and RAM mixable but chip addressing must match)
- Strappable memory area allocation

ELECTRICAL REQUIREMENTS:
- +5V at 0.4A plus PROM current

PHYSICAL:
- Dual module, mounts in one-half quad slot
